

# New Frontiers in Biomarker Assessment: Salivary-Based Assays

Workshop June 11, 2014

(MQA Approved)

**Special Offer!**  
Register @ Rs. 15,000  
60% HRDC Refundable  
Save up to  
Rs. 9,000!!

## About The Workshop

- ◆ Update yourself about the latest scientific developments in non-invasive methods for biomarker assessment
- ◆ Learn how to design and develop experimental protocols for salivary-based assays
- ◆ Understand how to optimize and troubleshoot assay conditions
- ◆ Practice analyzing and interpreting data and statistics for in-vitro assays

## Course Content

- ◆ Invasive vs. non-invasive methods for biomarker assessment
- ◆ Salivary-based biomedical diagnostics and biomarkers
- ◆ Clinical methods for cortisol assessment
- ◆ ELISA immunoassay techniques
- ◆ Assay validation and process improvement
- ◆ Showcase: stress level assessment
- ◆ Optimal conditions for sample collection and storage
- ◆ Data modeling and statistical analysis
- ◆ Protocols and regulatory framework

## Who Should Attend

- ◆ Medical Lab Directors & Managers
- ◆ Biomedical Researchers & Scientists
- ◆ Diagnostic Centre Professionals
- ◆ Medical Doctors
- ◆ Hospital & Clinic Lab Staffs
- ◆ Entrepreneurs of Biotech Firms

## Resource Person

Dr. Supriya Sharma, Ph.D.  
Researcher & Biotechnologist  
Dominican University of California, USA

## Contact

**FOCUS GLOBAL LTD**  
Tel: (230) 5921 6801 / 5958 4909  
E-mail: [manager.focusglobal@gmail.com](mailto:manager.focusglobal@gmail.com)

## Course Delivery

- ◆ 6 hours
- ◆ Face-to-face training
- ◆ Interactive sessions
- ◆ Group discussions
- ◆ Case studies

## Date & Venue

- ◆ June 11, 2014
- ◆ Domaine Les Pailles
- ◆ Including lunch, tea breaks, course materials & certificate of attendance

## Registration Cost

- ◆ Rs. 15,000 by June 6, 2014
- ◆ Eligible for HRDC refund up to 60%. \*Conditions apply.
